## Forest Certification and Chain of Custody

Britton Timbers are processors of fine Tasmanian oak and Tasmanian blackwood.

Our Resources are supplied from defined forest areas which are certified under the Australian Forestry Standard (AS4708:2007).

Our production processes, procedures and ultimately the fine timber we produce are chain of custody certified to AS4707:2006 through Fine Timber Tasmania (license: FTT09009). This chain gives confidence that Brittons timber is legally sourced from a certified sustainable forest.

Shawn Britton
