

JARRAH FLOORING

Eucalyptus Marginata

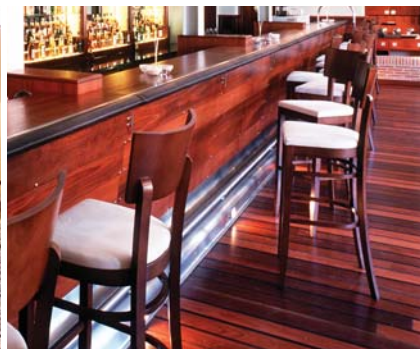

Jarrah's deep-pink to reddish-brown tones make it a highly sought-after timber with architects and designers now choosing it to complement modern design elements such as glass, granite and steel.

Jarrah's high density makes it a very hard-wearing timber suitable for a variety of flooring applications. It's even grain and lustrous texture adds an undeniable richness and depth to residential and commercial interiors alike.

Britton Timbers carries stocks of Jarrah Flooring at its Melbourne, Sydney and Brisbane outlets for immediate delivery and through Britton Timbers International, can arrange prompt supply to overseas destinations.

Sizes: 19 x 80 Tongue and Grooved Secret Nailed End Matched
 19 x 130 Tongue and Grooved Secret Nailed End Matched
 13 x 85 Tongue and Grooved Overlay
 13 x 105 Tongue and Grooved Overlay

Britton Timbers can supply matching stair componentry and stair treads.

TECHNICAL INFORMATION

Density (kg/m ³ dry)	820	Tangential Shrinkage %	8	Machining	Fair
Specific Gravity	0.8	Hardness (Janka) (kN)	8.5	Resistance to Split in Nailing	Fair
Modulus of Rupture (MPa dry)	112	Finish	Good	Resistance to Split in Screwing	Fair
Modulus of Elasticity (GPa dry)	13	Stability	Good	Gluing	Good
Radial Shrinkage %	5	Sapwood Lyctid Susceptible	Yes	Growing Region	WA
				Availability	Widely
