

NORTHERN BOX DECKING

Tristania Obovata

Northern Box (or Pelewan) is a very hard timber with high resistance to wear and splintering.

It features an even texture and greyish pink to reddish brown colours.

Northern Box is a practical and attractive choice where durability and good looks are required.

The application of natural oils also enhances its rich colour and even grain.

Britton Timbers supplies Northern Box decking Australia-wide from our Melbourne, Sydney and Brisbane distribution centres and overseas markets through Britton Timbers International.

Sizes: 42mm x 19mm Pencil Round Four Corners
68mm x 19mm Pencil Round Four Corners
90mm x 19mm Pencil Round Four Corners
140 mm x 19mm Pencil Round Four Corners

BAL: Bushfire Attack Level 12.5 & 19
All AS 3959 Required Applications

TECHNICAL INFORMATION

Density (kg/m ³ dry)	900	Tangential Shrinkage %	10	Machining	Fair
Specific Gravity	0.9	Hardness (Janka) (kN)	10	Resistance to Split in Nailing	Fair
Modulus of Rupture (MPa dry)	123	Finish	Fair	Resistance to Split in Screwing	Fair
Modulus of Elasticity (GPa dry)	15	Stability	Fair	Gluing	Poor
Radial Shrinkage %	5	Sapwood Lyctid Susceptible	No	Growing Region	Asia Pacific
